

Advertise with Chicago Metal Society

Associate your company with the major U.S. metalworking societies. The cost is \$50 until August 31, 2010, for the first advertiser. After that, the price reverts to \$100 per year—from September to August.

The exact pro-ration formula is:

Number of whole months remaining until August 31 minus one, times \$100/12.

All advertisers have the option for a hit counter with fees based on hit count. This hit counter can tell you who looked at your website, when, referring links, exit links, browser used, operating system used and much more info.

This info can generate new sales leads and can indicate who would be the strongest lead.

Mail your \$50 or pro-rated check to:
